

# Playgroup

for children 8-36 months

**Baby Bubs**  
8-12m

**Pico Bambini**  
12-18m

**Nano Bambini**  
18-24m

**Little Bambini**  
24-36m

The **Bambini Republic Playgroup** is an **activity-based** program designed especially for young children before reaching kindergarten age. We emphasize on the **fun and importance of play to motivate kids to learn**. A weekly theme provides the backdrop for learning goals and activities, allowing children to make connections between the various experiences during a session.

Baby Bubs  
8-12m

**Baby Bubs** is a unique program that allows babies to learn about themselves and discover the world. A well-designed curriculum incorporates **fine & gross motor skills, singing, group reading, and vocabulary exploration.**

**Sensory Integration** is encouraged through a variety of exercises in taste, touch, smell, sight, sound, and movement.

Pico Bambini  
12-18m

**Pico Bambini** and **Nano Bambini** build on the foundations established in the Baby Bubs program. These programs offer a fun, stimulating and challenging curriculum that continues to build on the child's **ability to relate socially to others.** By 2-yr old, many of our bambini become more **self-confident** and **communicative.** Not only do they gain the capacity to **focus on learning tasks** better, but also the competency to process the physical and social environment in a more organized fashion.

Nano Bambini  
18-24m

Little Bambini  
24-36m

**Little Bambini** is a stepping-stone program for children who are about to enter kindergarten. This is a fantastic opportunity for children within this age range to begin acquiring a solid foundation for their burgeoning **language skills**, to develop **effective socialization skills**, and to familiarize themselves in a **structured learning environment.** Our Little Bambini curriculum aims to **stimulate student's language abilities** within a pressure-free, exploratory framework. Stations for structured learning are included to provide the child with individual attention in a group setting.
